Moket (moket.kr)

Media Kit - October 2026 | Operated by PrevitLAB

ABOUT

Moket is a Korean-language AI tool discovery site. We help Korean users find the right AI tool for a specific job or task, through verified tool pages (1,000+ tools), rankings, reviews, comparisons, how-to guides and series. Moket is an independent information site; we do not sell or operate the tools we list.

AUDIENCE (GA4, LAST 30 DAYS TO 2026-10-16)

~29K	~62K	~37K	83%
active users	pageviews	sessions	users in Korea

Devices: ~59% desktop, ~40% mobile. Other top countries: Hong Kong, Singapore, China, US (each under 11%). Most-read sections: rankings (~41% of views), tool pages (~30%), job-impact (~10%), verdicts/reviews (~9%), series (~3%). Figures are rounded; device shares can exceed 100% in total because users who switch devices are counted on each.

SEARCH (GOOGLE SEARCH CONSOLE, LAST 28 DAYS)

About 24.9K impressions and 10.1K clicks, average position 2.4. A large share of this is branded search, so we treat it as reach among people already looking for Moket.

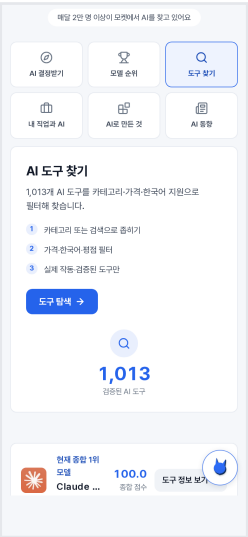

CONTENT FORMATS

Dedicated tool pages with Korean-language summaries, pricing and fit; rankings; head-to-head comparisons; practical how-to articles; job- and task-based recommendation guides; multi-part series.

PARTNERSHIP MODEL

A dedicated tool page on Moket, outbound visit-button click tracking via your affiliate link, and a Korean how-to article for the use case that fits your product. Revenue-share only: no posting fee.
